Skills

-Javascript -ReactJs -NextJs -TailwindCSS -Bootstrapp -CSS -HTML
-Node -SQL -GIT

Personal projects

PERSONAL PORTFOLIO

Feb. 2023 - Feb. 2023

- https://my-portfolio-sepia-ten-33.vercel.app/
- Developed a personal portfolio website showcasing my skills and projects using Next.js, React, Tailwind CSS, and Framer Motion.
- Explored the latest features of Next.js for server-side rendering, optimized the user interface using Tailwind CSS, and implemented smooth animations with Framer Motion.
- Enhanced my proficiency in these technologies through an in-depth study of each component and technology employed in developing this portfolio.

MODERN WEBSITE

May. 2023

- https://modern-website-tau.vercel.app/
- Developed a webpage following a Figma design, showcasing my ability to implement designs accurately and effectively.
- Technologies: React, Tailwind CSS
- Utilized React to build reusable components and integrated Tailwind CSS to create a responsive and visually appealing layout. Managed multiple variables in Tailwind CSS for efficient styling and customization.

GPT-3 BLOG

May. 2023

- https://gpt3-blog.vercel.app/.
- Implemented a website redesign using CSS Modules, focusing on modular and scoped styling for improved maintainability.
- Explored the benefits of CSS Modules for encapsulating styles within individual components, improving code organization and reusability.
